Requisition for supply of Salbutamol Inhaler and/or spacer device(s)

Dear Community Pharmacist,

As part of the Asthma Friendly Schools initiative- I would like to purchase the below item(s)

Inhaler/Spacer	Quantity
Salbutamol 100mcg metered dose inhaler	
Aerochamber flow-vu antistatic with child mask	
Aerochamber flow-vu antistatic youth 5+	

These inhalers and spacers will be used in the event of an emergency for children with asthma where parents have provided prior consent. The Human Medicines (Amendment) (No. 2) Regulations 2014 allows schools to buy emergency inhalers to keep in school

Thank you for your assistance.

Yours Sincerely,

Wet signature
